HUMAN RIGHTS CHARTER

Issued by Cyrus the Great
539 BC — the founding covenant

When the Islamic Republic falls, Iran will require one of the most complex economic reconstructions in modern history. The communities best positioned to lead it are the ones who have spent decades preparing for it in exile.

The Covenant That Predates Nations

539 BC

The Cyrus Declaration

Persian King Cyrus frees the Jewish people from Babylonian captivity. Issues the world's first human rights charter. Funds the rebuilding of the Temple in Jerusalem. Anointed by God in the Hebrew Bible — the only non-Jew to receive this designation.

Pre-1979

Iran-Israel Partnership

Strong diplomatic, military and commercial ties under the Shah. Iranian oil to Israel. Israeli agricultural expertise to Iran. 80,000+ Jews thriving in Tehran. Severed by ideology — not by history.

2020

The Abraham Accords

UAE, Bahrain, Sudan and Morocco normalise relations with Israel. The Gulf reveals itself as pragmatic and commercially oriented. The framework now exists for the most consequential normalisation of all: Iran and Israel.

Now

The Cyrus Accord

The diaspora communities with the deepest stake — Iranians and Jews — mobilise capital, expertise and networks to lead Iran's reconstruction. Ancient covenant. Modern institution.

A Civilisational Business Institution

What we are NOT

- A charity or NGO
- A political movement
- A government body
- A sanctions-busting scheme
- An Iran lobbying group

What we ARE

- ◆ A private-sector led commercial network
- ◆ A community-governed investment institution
- ◆ A marketplace for Iran-focused trade
- ◆ A syndicate engine deploying real capital
- ◆ The authoritative voice on Iran's new economy

"This is not a charity. It is not an NGO. It is a civilisational business institution — built to generate wealth, create infrastructure, and restore one of the world's oldest trading civilisations to its place in the global economy."

Two Ancient Peoples. One Shared Mission.

Iranian Diaspora

London · LA · Toronto · Dubai · Frankfurt

- ◆ Most educated diaspora globally per capita
- ◆ Deep entrepreneurial networks in tech, medicine, law
- ◆ Emotional mandate — family ties to Iran
- ◆ Largest presence: USA, UK, UAE, Canada, Germany

"You can finally do something concrete for Iran — and profit from it."

Jewish / Israeli Community

15M Jewish globally · 700k+ Israeli diaspora

New York · London · Tel Aviv · Miami · Sydney

- ◆ Ancestral connection to Persia (Purim, Esther, Ezra)
- ◆ Israeli tech leadership in AgriTech, MedTech, Cyber
- ◆ Post-Abraham Accords appetite for regional expansion
- ◆ Capital networks in finance, VC, real estate

"The Cyrus covenant was the beginning. You are the continuation."

Gulf / MENA Partners

UAE · Bahrain · Saudi · Qatar

Dubai · Abu Dhabi · Manama · Riyadh

- ◆ Already in Abraham Accords framework
- ◆ First-mover hunger for Iran access
- ◆ Family offices seeking structured Iran exposure
- ◆ Dubai as natural Iran–Israel triangulation hub

"Iran is the biggest untapped market in the region. Be first."
